PRODUCT REFERENCE & PRICE GUIDE

# Honeycomb

COLLECTION

May 2, 2016

Prices subject to change without notice.

# HONEYCOMB FEATURES & BENEFITS

- Honeycomb construction provides superior insulation and energy efficiency.
- No visible cords or cord holes reduces light leaks and adds to the fashionable appeal.
- Fabric available in wide widths to cover large expansive windows with no seams or overlap.
- Neutral white backing provides a uniform appearance to the outside of the home.
- 100% crisp polyester fabric repels dust and dirt, and is easy to clean and maintain.
- Multiple design options and operating systems available to provide the perfect solution for the single homeowner to the busiest family.

## FABRIC CHOICES

### ELEGANCE COLLECTION

The Elegance Collection features beautiful, high-quality fabrics that add warmth and a designer style to your home's décor.

- For deep, vibrant and consistent color in a woven fabric, choose the 3/4" Woven in a translucent or blackout.
- Choose one of the NEW 3/4" Shimmer patterns for a metallic sheen.
- Exclusively in the Elegance Collection, consider the 3/4" Sheer or Semi-Sheer Knitted fabric selection for a fresh look and open view to the outside.
- Flame Retardant fabrics are available in 3/4" translucent and blackout options.

### RADIANCE COLLECTION

With the largest selection, our Radiance Collection offers it all. Time-honored favorites and trendy new fabrics are available in a wide variety of colors, sizes, solids and textures.

- NEW 3/4" Brushed fabrics offer a depth of character in translucent and blackout.
- Popular 3/4" Textured or Classic fabrics come in translucent or

blackout.

- 3/4" Sateen pattern presents a rich color palette.
- Double Cell Texture and Classic colors are available in translucent.

### SOFT TOUCH COLLECTION

The Soft Touch Collection stands on its own as a budget friendly collection with all of your standards.

- The NEW Grand Pleat features expanded fabric pleats in trending colors with translucent and blackout opacities.
- 3/4" Essentials is available in translucent and blackout.
- 9/16" Essentials is available in translucent and blackout.
- The unique and distinctive 9/16" Pointbond fabrics are available in translucent.
- Double Cell Soft Touch fabrics are available in translucent and blackout.
- The Linen pattern provides interest to your window treatment with the functionality of a blackout opacity.

## PRIVACY & LIGHT CONTROL OPTIONS

Honeycomb shades come in 4 fabric types, sheer, semi-sheer, translucent, and blackout. Each offers a different degree of privacy and light control.

### SHEER AND SEMI-SHEER FABRICS

- Transmit light with view through the shade
- Do not provide privacy
- Available in 3/4" Single Cell Fabrics

### TRANSLUCENT FABRICS

- Transmit filtered light with no view through the shade
- Provide moderate privacy
- Available in 3/4", 3/8" and 9/16" Single Cell, Double Cell and Grand Pleat fabrics

### BLACKOUT FABRICS

- Blocks 99% of outside light
- Provides complete privacy and light control
- Available in 3/4", 3/8" and 9/16" Single Cell, Double Cell and Grand Pleat fabrics

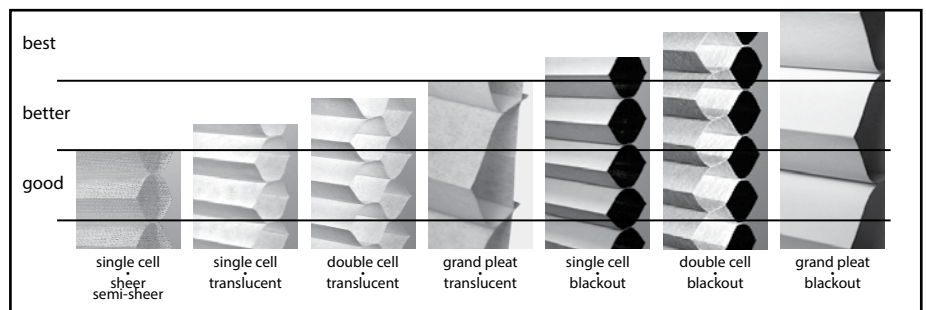

TRANSLUCENT FABRIC

BLACKOUT FABRIC

## ENERGY EFFICIENCY

Honeycomb shades are among the most energy-efficient window coverings available. The insular property of honeycomb fabric is attributed to its unique cellular construction creating a barrier of chambers designed to reduce heat and the damaging effects of UV light. Our premium honeycomb fabrics are categorized into three simple levels of energy efficiency to help you maximize your budget and the comfort in your home: good, better and best.

## DESIGN OPTIONS

## STANDARD SHADE

- Aluminum rail & cord-operated
- Color-coordinated components

## DAY/NIGHT

- Provides privacy & controls light with two fabrics
- Translucent fabric on top to enhance light
- Blackout fabric on bottom to eliminate light
- Middle rail connects & adjusts both fabrics

## PREMIUM CORDLESS

- Enhanced Safety design eliminates cords
- Superior performance
- Available in Top-Down/Bottom-Up

## 2-ON-1 HEADRAIL

- Perfect for larger windows
- Allows two shades to mount on one rail
- Each shade is adjusted independently

## LIFT &amp; LOCK CORDLESS

- Enhanced Safety design eliminates cords
- Handle to control operation by locking shade in desired location

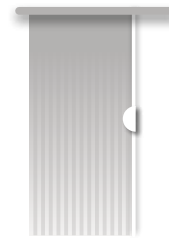

## MOMENTA™ MOTORIZED SHADE

- Perfect for hard-to-reach windows
- Programmable IR & RF remote control
- Enhanced Safety design eliminates cords
- Compatible with smart phone or tablet app

## CONTINUOUS CORD

- Perfect for larger windows
- Smooth lift-assisted movement
- Eliminate dangling cords

## VERTICAL HONEYCOMB

- Side-to-side operation
- Accommodates sliding doors
- Perfect for room dividers & rectangular windows
- New Grand Pleat size available
- Enhanced Safety design eliminates cords

## TOP-DOWN

- Provides privacy & enhances light flow and view
- Stacks neatly at bottom of window

## SPECIALTY ARCHES

- Stationary perfect systems

## TOP-DOWN / BOTTOM-UP

- Maximum privacy & light control
- Middle rail & bottomrail adjust to desired locations
- Raise shade up from bottom to maximize light
- Available in Cordless, Continuous Cord or Motorized options

**DESIGN OPTION SURCHARGES**

- Center Stack..... Add \$225 to shade base price
- Split Stack/Center Opening ..... Divide full width measurement in half, price as two separate units, add together
- Dual Panel ..... Price as two separate units and add together

HONEYCOMB PRODUCT SPECIFICATIONS

MOUNTING REQUIREMENTS

**Standard Rail** (for standard corded or Lift & Lock cordless):

Minimum Shallow Mounting Surface .....	1/2"
Minimum Flush Inside Mounting Surface .....	2"
Minimum Outside Mounting Surface .....	3/4"

**Deluxe Rail** (for standard corded or Lift & Lock cordless):

Minimum Shallow Mounting Surface .....	1/2"
Minimum Flush Inside Mounting Surface .....	2 1/2"
Minimum Outside Mounting Surface .....	3/4"

**Premium Cordless Lift System:**

Minimum Shallow Mounting Surface .....	3/4"
Minimum Flush Inside Mounting Surface .....	2"
Minimum Outside Mounting Surface .....	1/2"

**Continuous Cord System:**

Minimum Shallow Mounting Surface .....	3/4"
Minimum Flush Inside Mounting Surface .....	2"
Minimum Outside Mounting Surface .....	1/2"

**Momenta™ Motorized Lift System:**

See page 20.

RAIL MEASUREMENTS

When measuring and installing, please keep in mind the following rail measurements.

**Standard Rail** (for standard corded or Lift & Lock cordless):

Depth:	1 7/16"
Height:	1/2"

**Deluxe Rail** (for standard corded or Lift & Lock cordless):

Depth:	1 7/8"
Height:	1/2"

**Premium Cordless System Rail:**

Depth:	1 11/16"
Height:	1 5/16"

**Continuous Cord System Rail:**

Depth:	1 11/16"
Height:	1 5/16"

**Momenta™ Motorized Lift System:**

Depth:	1 11/16"
Height:	1 5/16"

WIDTH LIMIT - SIDE MOUNT BRACKETS

There is a recommended 48" width limit on shades installed with side mount brackets.

FINISHED DIMENSIONS

Inside Mount:
 

- Headrail will measure ordered width less 3/16"
- Fabric will measure ordered width less 3/8"

Outside Mount:
 

- Headrail will measure ordered width plus 3/16"
- Fabric will measure ordered width

Exact: (endcap to endcap)
 

- Headrail will measure ordered width
- Fabric will measure ordered width less 3/16"

Headrail measurements include endcaps. Width and width measurements may vary +/- 1/8".

## HONEYCOMB PRODUCT SPECIFICATIONS CONT.

### STACKING HEIGHTS

Drop refers to shade fully extended. Stack refers to shade fully raised. Measurements do not include headrail and bottomrail. Add stack height to rail measurement to get total height.

MOMENTA™ MOTORIZED SHADE SPECIFICATIONS

MOUNTING REQUIREMENTS

3/8" Single Cell:

- Inside Mount: • Minimum mounting depth is 1 1/2"  
 • Minimum mounting depth, flush mount, is 3 3/8"
- Outside Mount: • Minimum flat vertical surface is 3/4"

3/4" Single Cell, Double Cell or Grand Pleat:

- Inside Mount: • Minimum mounting depth is 1 1/2"  
 • Minimum mounting depth, flush mount, is 3 3/8"
- Outside Mount: • Minimum flat vertical surface is 1 1/4"

MOMENTA™ MOTORIZED LIFT SYSTEM OPTIONS

Applications:

- Fits rectangular window opening
- Standard shades
- Bracket shims and extension brackets available at no charge (specify on order)
- Battery powered remote control operation is standard; wireless wall switch available on request
- New Momenta™ Motorized Shades can be controlled with the Momenta™ Shade Remote App

Surcharges:

- Remote Control: \$206 (purchase at least one hand-held remote control per order)
- Wireless Wall Switch: ..... \$155
- Daisy Chain Connector: ..... \$41
- Bridge (for app):..... \$390
- Extender (for app):..... \$130

Satellite Battery Pack:

The satellite battery pack will make changing batteries easier on tall or out-of-reach windows. Four cable lengths are available:

- Cable Assembly 15" ..... \$55
- Cable Assembly 4' ..... \$66
- Cable Assembly 10' ..... \$95
- Cable Assembly 20' ..... \$140
- Satellite Battery Pack..... \$121

Note: Use one cable assembly for desired length with Satellite Battery Mount.

AC Power Adapter:

Eliminate the need for batteries by using the AC adapter with any standard wall outlet. Four cable lengths are available:

- Cable Assembly 15" ..... \$55
- Cable Assembly 4' ..... \$66
- Cable Assembly 10' ..... \$95
- Cable Assembly 20' ..... \$140
- AC Adapter ..... \$291

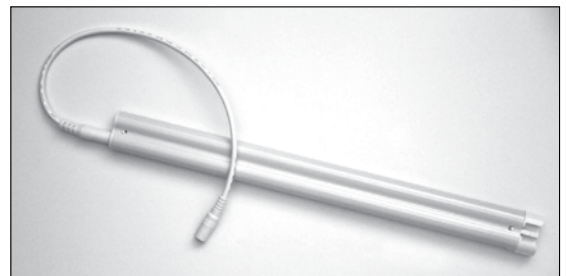

Note: Use one cable assembly for desired length with AC Adapter.

## MOMENTA™ MOTORIZED SHADE SPECIFICATIONS

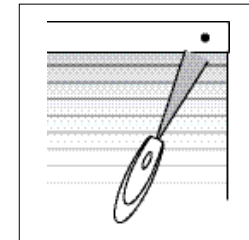

### METHODS OF OPERATION

#### Radio Control:

- No aiming necessary (like a garage door opener)
- Control window coverings individually or in groups
- Two button operation

radio control

infrared control

#### Infrared Control:

- Line-of-sight operation (like a flashlight)
- Control window coverings individually
- Default mode of remote
- One button operation

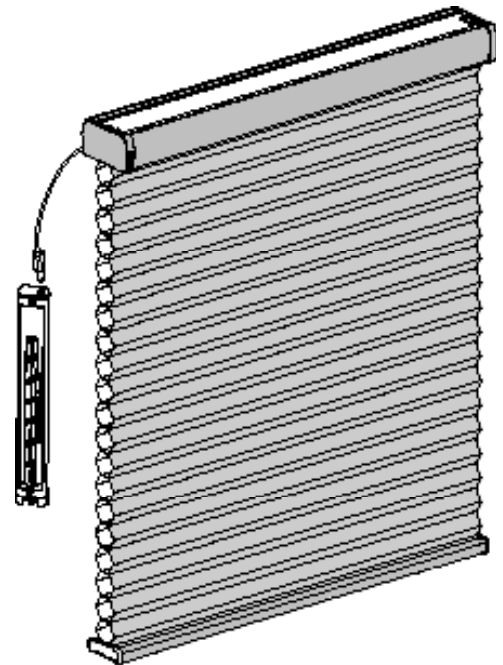

### ORDERING CONSIDERATIONS

#### How To Price:

- Price using standard shade price grid then add motorized surcharge based on width
- Add surcharge for at least 1 remote control
- Add surcharge for any options listed under 'MOTORIZED LIFT SYSTEM OPTIONS'

#### Checklist For Ordering Momenta™ Motorized Shades:

- Order shade size and specify inside or outside mount
- Price all applicable surcharges
- Specify right or left sensor eye
- Specify number of remotes or wireless wall switches
- If ordering Satellite Battery Pack, specify cable assembly length (15", 4', 10', 20')
- If ordering AC Adapter, specify cable assembly length (15", 4', 10', 20')
- Order number of desired spacer shims

VERTICAL HONEYCOMB SPECIFICATIONS

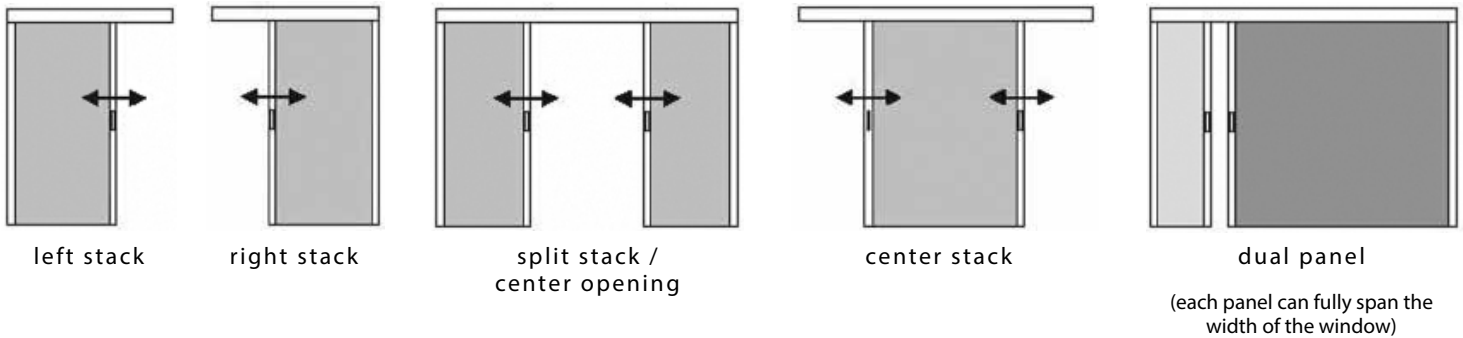

Vertical Honeycomb:

Vertical Honeycomb shades fit rectangular windows, sliding glass doors, and door openings. Vertical Honeycomb shades open and close from side-to-side to accommodate sliding glass doors and room dividers perfectly. Vertical Honeycomb shades feature no dangling cords, hanging chains or wands making them a safer choice for children and pets.

Available in 3/4" Single Cell Blackout, 3/4" Single Cell Translucent and Grand Pleat fabrics.

STACKING CONFIGURATIONS

SIZE SPECIFICATIONS

- Minimum Width: 12"
- Minimum Height: 24"
  
- Maximum Width: 168" (except D08/D09 fabrics - 120")
- Maximum Height: 120"

Note: For Center Opening or Dual Panels, specifications are per fabric panel.

Note: Center Opening Shades are available in widths up to 336". If width is greater than 168", it will be fabricated as two shades with a single valance piece to create the illusion of a single shade.

MOUNTING REQUIREMENTS

- Inside Mount: Minimum mounting depth required is 3/4"
- Flush Mount: Minimum mounting depth required for: Aluminum Valance is 3 5/8"
- Outside Mount: Minimum flat vertical surface required is 5/8"
- Fabric Stacking: 6 1/2" (fabric stack is determined by hardware, not ordered width)

FINISHED DIMENSIONS

- Inside Mount:
    - Headrail unit will measure ordered width less 3/16"
    - Shade height will measure ordered height less 1/2"
    - Valance width (non-flush) will measure ordered width plus 1 1/4"
    - Valance width (flush) will measure ordered width less 3/16"
  - Outside Mount:
    - Headrail unit will measure ordered width
    - Shade height will measure ordered height
    - Valance width will measure ordered width plus 1 1/4"
- Width and height measurements may vary +/- 1/8".

\*Please refer to price grids for surcharge information.

## VERTICAL HONEYCOMB SPECIFICATIONS CONT.

### NO CHARGE OPTIONS

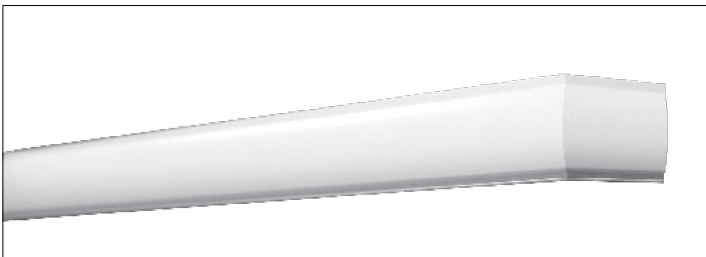

- Extension brackets
- Spacer blocks

Please note on order any options required.

### HARDWARE INFORMATION

- Color coordinated rails are available for the top and vertical rails
- The aluminum valance is color coordinated to the rail

### VALANCE INFORMATION

aluminum valance

An aluminum valance comes standard with your Vertical Honeycomb shade order.

Aluminum Valance Height: 2 3/4"

Please Note: Vertical Honeycomb shade widths over 108" may require the valance to be spliced.

### ORDERING CHECKLIST

- Specify inside flush, inside non-flush, or outside mount. If inside non-flush mount, either the inside mounting depth or the exact valance return length (minimum 1 1/2") must be specified.
- With outside mounts, allow 3" to 6" overlap on each side to minimize light gap, and account for minimum vertical mounting surface and desired floor clearance when specifying height.
- Specify stacking configuration.
- On split stack shades, both panels will be of equal width, unless otherwise specified.
- On dual panel shades, specify which fabric stacks to the left and which fabric stacks to the right.  
NOTE: Different pleat sizes cannot be combined on the same shade.
- Standard handle height ranges from 40" to 50" from bottom of moving rail; specify any non-standard handle height.
- An aluminum valance is included in the price of each shade.
- Specify spacer blocks or extension brackets, if desired.

## MEASURING INSTRUCTIONS

Accurate measurements are essential, for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For inside mounts, width measurements **A** should be rounded down to the nearest 1/8" to prevent blind from rubbing against the window casing.

### INSIDE MOUNT

Use a steel tape to measure the opening width **A** at three different places, and use the narrowest dimension when ordering. Be exact! The factory will make the shade 3/8" narrower so it will not rub against the window casing. Measure the height **B** of the window from the top (Soffit) down to the sill.

### OUTSIDE MOUNT

Use a steel tape to measure the exact width **C** and height **D** of the area to be covered. It is recommended that the shades overlap the window by at least 1/2" on each side. When installation has no sill, allow the shade to overlap the bottom of the window casing by at least 1/2". Shade fabric will measure the width and height indicated on the order form.

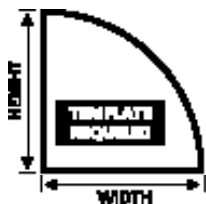

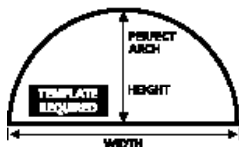

### ARCHES

For inside mounts, measure the exact width and height inside the window opening.

For outside mounts, measure the desired width and height.

Measure the height at its tallest point.

• All arch openings can only be for perfect arches where the height will equal 1/2 the width.

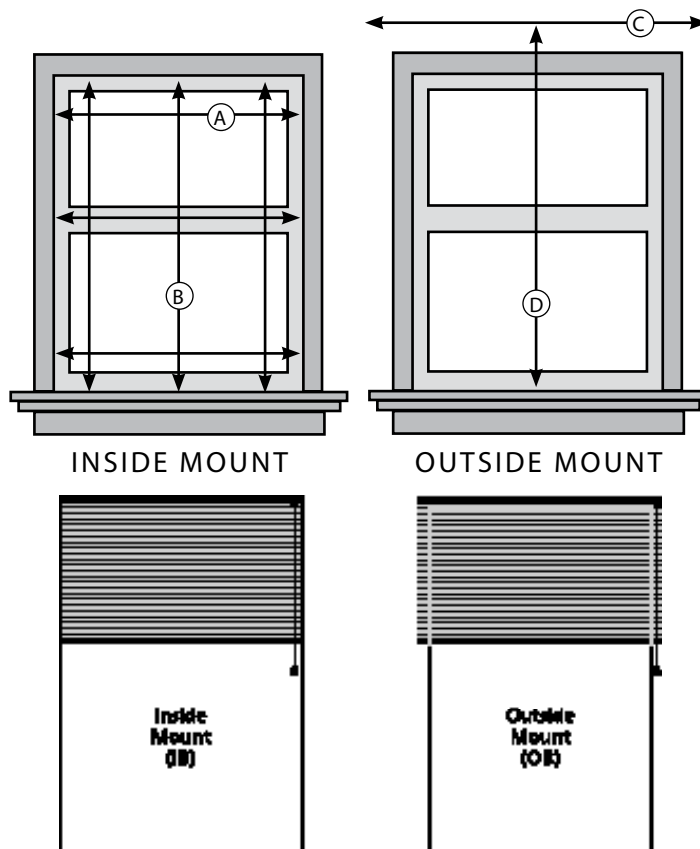

### CUT-OUTS

• Cut-outs are available with all fabrics.

• Cut-outs are \$149 per side and are subject to approval by the fabricator.

• There are no limits on cut-out heights. There are, however, limits on cut-out widths:

Shade widths less than 18": 3" max. width  
 Shade widths greater than 18": 5" max. width

#### 5 STEPS TO AN ACCURATE TEMPLATE

1. Tape butcher paper or heavy wrapping paper over the window opening allowing plenty of overlap. Do not use paper that has ever been folded; a template can have no folds or creases.
2. Draw an exact outline of the window opening. Do this by carefully tracing over the inside edge of the window frame.
3. Remove the paper from the window opening. If the blind is an outside mount, add the desired amount of overlap to the window outline and draw a second outline around it to match the shape of the finished blind.
4. Mark the blind dimensions on the template. Check that the template dimensions match the measurements of the actual window opening.
5. Identify the template and its orientation. Write the customer's name and PO# on the template, and mark the 'Room Side' and 'Top'. Roll up the template and place it in a mailing tube.

**IMPORTANT:** Do not fold the template. Template must be cut out in the exact shape of the window opening and tested in window for correct fit.

For any shade requiring a template, there will be a template surcharge of \$151 added to the price of the shade.

## CHILD SAFETY

Our Honeycomb Shades are designed with child safety as a priority. To reduce the risk of strangulation, our fabrication methods incorporate features to comply with the current ANSI cord safety standard. Fabrication methods include cord stops, Cord-Shield cording, and tension devices.

To further reduce the risk of accidents, all cords should be kept out of the reach of children. Cord cleats can help implement this essential precaution and are therefore included with all standard cord lock/pull cord Honeycomb Shade products. The cord cleat should be mounted at a safe height, taking into account furniture or other objects upon which a child may climb.

After each use of the shade, excess cord should be wrapped around the cleat out of the reach of children.

For Honeycomb Shades made with a clutch operating system, our tension device is designed, and is to be placed and shipped, so that unless it is properly installed (or altered from the shipped condition with sequential process or tools), it prevents the shade from operating. The tension device, once installed, can help prevent children from pulling cords around their necks.

## CARING FOR SHADES

While beautiful and delicate in appearance, Honeycomb Shades are designed to be durable, easily cared for and easily cleaned. The non-woven fabrics are inherently anti-static and repel dust. Occasional feather dusting or vacuuming may be necessary to keep the fabrics clean and bright.

Spills and stains can be lightly blotted with a cloth or damp sponge. More difficult stains may require soaking in water with mild soap. For this, remove the shades from the window and submerge, soak and rub lightly. DO NOT submerge the Deluxe Cordless headrail in water. Lay flat to dry or place back in window and raise tightly to re-crisp pleats. Please test any stronger cleaners on an unobtrusive portion of the shade.

## LIFETIME LIMITED WARRANTY

Honeycomb Shades will be free from defects in materials and workmanship for as long as the original purchaser owns the product, provided that the product was installed properly and in accordance with the cellular shade installation instructions. This lifetime limited warranty is extended to the original purchaser only, in the original window for which it was intended.

This warranty does not include any conditions or damages resulting from accidents, alterations, misuse, abuse or failure to follow printed instructions on installation, care and cleaning or repairs. This warranty also does not apply to conditions resulting from normal wear and tear.

**THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES OR WARRANTIES.**

In no event shall the manufacturer of these Honeycomb Shades or its licensed fabricators, distributors, or dealers, be liable for INCIDENTAL OR CONSEQUENTIAL DAMAGES, or for any other damage, loss or expense, cost of fee associated with such damage. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply.

Momenta™ Motorized Shade motors and components are limited to a 5 year warranty.
