

REVISED 1-22-18

Effective January 1, 2018, the following shipping fees will be applied.

Shipping costs continue to rise. With both UPS and Fed Ex raising their rates for residential deliveries and implementing new cost on midsize fees on packages over 48" and over 60" respectively. Freight carriers have also greatly increased their costs with added emphasis on shipments to residential addresses. In addition, cost to keep our in-house (Oxford House) delivery truck on the road has increased. Therefore; we will need to share a portion of these added costs with our customers. To ensure proper shipping and handling fees are assessed, we will be asking if the shipping address we have in file is commercial or residential. In cases of a drop ship, we will need you to communicate that information as well.

We appreciate your business. It is very important to us and remember each time we make a product you and your customers are employing 1 person here in the US for 1 hour. Again, Thank You for your business!!

Standard Shipping Policy

Handling fee of \$4.25 per unit for items shipping to a commercial location

Handling fee of \$5.25 per unit for items shipping to a residential address.

"Mid Size" - shipments over 60" up to 90" = additional \$6.50 per order.
